BRAND GUIDELINES
VERSION 1.0 · 2026

One clear view.

A brand for the business that wants to see all of it. Books, stock, people, projects, shop, till, phone and assistant — one record, one clear view.

CLARITY WARMTH CONTROL

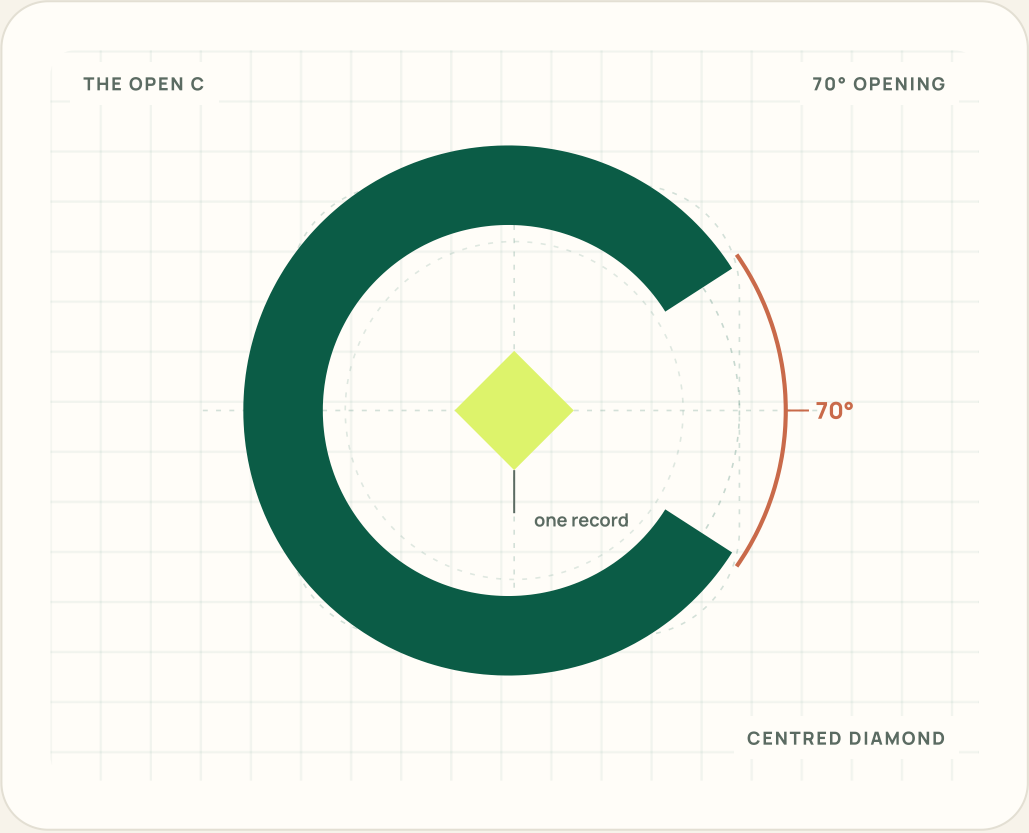

One open line. One clear view.

Clafina is the first letter of the name and the shape of the promise: an open system that holds the whole business in one continuous line.

The C never closes. There is always another sale, another hire, another channel or another idea to take in. The opening faces forward — the direction the business is going.

At the centre sits one citron diamond: the one record. Every surface reads and writes the same numbers, so the picture never splits.

Open	The C is a line, not a wall. The platform takes the next thing in.
Clear	The opening is also an eye. One view, not nine dashboards.
Human	Bone, not grey. A business tool that feels made for people.

The C

An open ring. The first letter, drawn as a container that never closes.

The diamond

The single record. It repeats as the tittle of the i in the wordmark.

The tile

Evergreen, 24% radius. The app icon, the avatar, the favicon.

The mark and the wordmark.

One colour only, never redrawn

Clearspace

Keep one C-stroke of empty space on every side. Nothing enters it — not type, not a rule, not the edge of a card.

- Stretch

- Shadow

- Recolour
- Re-space

The tile is part of the primary lockup.

One record

The citron diamond is the only decorative element allowed inside the mark. Keep it citron on Evergreen, and Evergreen on Bone. It is never a second logo.

Evergreen.

RGB 11 · 92 · 70
CMYK 88 · 0 · 24 · 64

The colour of the ledger, the leaf and the tile. Deep enough for text and confident enough to carry an action. It is the one colour a customer should remember.

Four colours do the work. The rest support them.

60% Bone / Paper · 30% Evergreen / Ink · 10% Citron / Clay

Citron is a highlighter, not a background for text. Clay is for illustration, charts and large display type only. Status colour always travels with a word or an icon.

One family.
Four weights that matter.

DISPLAY	One clear view.	800 · 96 / .94 / −5%
HEADING	Know what is next.	750 · 48 / 1.05 / −3%
SUBHEAD	The same record, everywhere.	600 · 24 / 1.3 / −2%
BODY	Every sale, item and person, on one page. Plain words, real numbers.	450 · 17 / 1.6 / −0.5%
LABEL	TODAY · 24 ITEMS · 3 PEOPLE	700 · 12 / +12% / upper

Sentence case. Headlines start with a capital and end with a full stop. Labels are the only uppercase type.

No decorative weights. If a screen needs emphasis, use 750 or a tint — not a second typeface.

THE NUMBERS LINE UP · TABULAR-NUMS

Sales	₦1,248,500.00
Stock	₦684,200.00
Owed	₦91,300.00

Clarity is not a tone of voice. It is a layout decision.

The biggest type goes to the one thing that matters. Everything else gets smaller, quieter and out of the way.

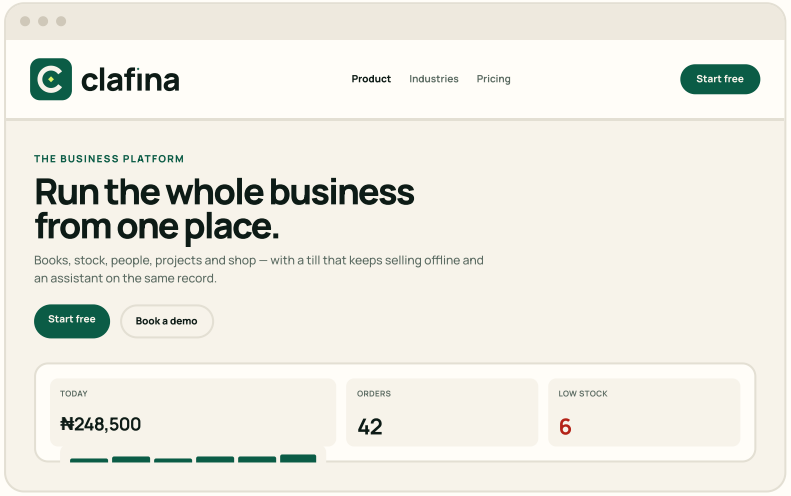

Use Manrope for the wordmark, headlines, product and body.

Load the Latin subset (24 KB). Fall back to the system sans before it paints.

The brand at work.

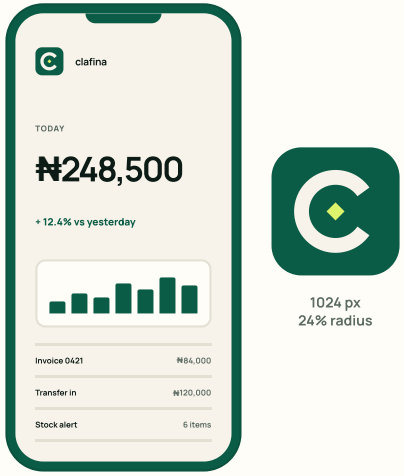

Website

One black thing per area becomes one green thing.

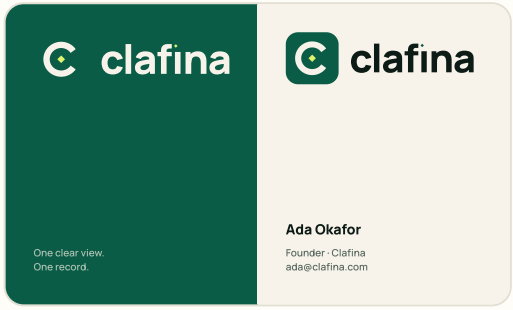

App icon

One tile, one C, one record.

Card

Evergreen back, bone front.

Social

The mark carries the colour.

Say it plainly.

Short sentences. Concrete nouns. Numbers where they help. **"Know what is owed."** not **"leverage actionable insights."**

Warm, not cute.

Talk to a person who is busy. No exclamation marks, no jargon, no "revolutionary". **"This is yours to export."**

One claim, then proof.

Every promise gets a number, a screenshot or a customer. **"Close the books in a day."** **"World-class."**

One clear view. One record.
